## Meeting Minutes

November 12, 2014

### **Attendance:**

Molly Eppig, Peter Eppig, & Peter Martel.

Meeting began at 7:05PM

We reviewed the status of the Depot and the recent BBC (Bennington Building Committee) meeting. There was a question what our role is going forward. We agreed it was to continue to advocate for best energy saving solutions for the project.

The report endorsed Margaret's "Best Practices" in principle; the BBC decided to ask that plans also be submitted without the large windows. We will ask Margaret Dillon to run final numbers based on that assumption.

We decided to submit a letter endorsing approaches we feel reflect the energy committee's perspective. David will work on with the possible help of one other with the intent of having a draft ready for our next meeting

David will check with Water Dept for progress.

We will review Fire Dept. progress at a future date.

Our next meeting will be on 12/10/14 at 7PM (**Note: This is a week after our regularly scheduled meeting**)

Meeting adjourned at 8:30AM.

Respectfully submitted,

Peter K. Martel
