The site walk began 6:00 p.m. at the North entrance of the Harris Gravel Pit. Donna Harris led the members of the Planning Board through the property answering questions about the gravel pit and its operation. The Board viewed both working pits and the culvert. It was noted that different materials are obtained in the two pits. Both the North and South pits were observed. It was noted that the reclamation material in the South Pit is stored at the top of the pit walls. The Board returned to the Town Hall to reconvene the Public Hearing.
